

holder, must submit to BLM a certified statement listing any tenants and customers in your facility or facilities and the category of use for each tenant or customer as of September 30 of the same year. BLM may require you to submit any additional information needed to calculate your rent. BLM will determine the rent based on the certified statement provided. We require only facility owners or facility managers to hold a grant or lease (unless you are an occupant in a federally-owned facility as described in § 2806.42 of this subpart), and will charge you rent for your grant or lease based on the total number of communication uses within the right-of-way and the type of uses and population strata the facility or site serves.

§ 2806.32 How does BLM determine the population strata served?

(a) BLM determines the population strata served as follows:

(1) If the site or facility is within a designated RMA, BLM will use the population strata of the RMA;

(2) If the site or facility is within a designated RMA, and it serves two or more RMAs, BLM will use the population strata of the RMA having the greatest population;

(3) If the site or facility is outside an RMA, and it serves one or more RMAs, BLM will use the population strata of the RMA served having the greatest population;

(4) If the site or facility is outside an RMA and the site does not serve an RMA, BLM will use the population strata of the community it serves having the greatest population, as identified in the current edition of the Rand McNally Road Atlas;

(5) If the site or facility is outside an RMA, and it serves a community of less than 25,000, BLM will use the lowest population strata shown on the rent schedule.

(b)(1) BLM considers all facilities (and all uses within the same facility) located at one site to serve the same RMA or community. However, BLM may make case-by-case exceptions in determining the population served at a particular site by uses not located within the same facility and not authorized under the same grant or lease.

BLM has the sole responsibility to make this determination. For example, when a site has a mix of high-power and low-power uses that are authorized by separate grants or leases, and only the high-power uses are capable of serving an RMA or community with the greatest population, BLM may separately determine the population strata served by the low-power uses (if not collocated in the same facility with the high-power uses), and calculate their rent as described in § 2806.30 of this subpart.

(2) For purposes of rent calculation, all uses within the same facility and/or authorized under the same grant or lease must serve the same population strata.

(3) For purposes of rent calculation, BLM will not modify the population rankings published in the Rand McNally Commercial Atlas and Marketing Guide or the population of the community served.

§ 2806.33 How will BLM calculate the rent for a grant or lease authorizing a single use communication facility?

BLM calculates the rent for a grant or lease authorizing a single-use communication facility from the communication use rent schedule (*see* § 2806.30 of this subpart), based on your authorized single use and the population strata it serves (*see* § 2806.32 of this subpart).

§ 2806.34 How will BLM calculate the rent for a grant or lease authorizing a multiple-use communication facility?

(a) *Basic rule.* BLM first determines the population strata the communication facility serves according to § 2806.32 of this subpart and then calculates the rent assessed to facility owners and facility managers for a grant or lease for a communication facility that authorizes subleasing with tenants, customers, or both, as follows:

(1) *Using the communication use rent schedule.* BLM will determine the rent of the highest value use in the facility or facilities as the base rent, and add to it 25 percent of the rent from the rent schedule (*see* § 2806.30 of this subpart) for each tenant use in the facility or facilities;
